## To Horse Owners

FOR 25 long and strenuous years I have shod horses. Good ones and bad, fast and slow, lame and sound. I have made an intelligent study of the Art of Shoeing faulty gaited and tender-footed horses. I have had the great advantage of working in Veterinary Hospitals, and in some of the best shoeing forges in America. **LET ME DO YOUR SHOEING** and have your horses go straight and sound whether he be an honest work horse or well bred trotter.

## FOREWORD

The Waltham Directory, for 1907 and No. 17 of the regular series has returned to the old publishers W. A. Greenough & Co., established 1862, main office 8 Oliver St., Oliver Building, Boston, and while we do not guarantee perfection in publishing directories, our long experience in this line enables us to overcome obstacles, and reduce mistakes and errors to the minimum. We shall spare no pains or expense to have our publications up-to-date always. We also take this opportunity to thank the live business men who have inserted their advertisements in this issue, and bespeak for them a liberal patronage, also the householders who have added their names to our subscription list, and all who have aided in any way to make the work valuable to the municipality we are trying to serve.

Respectfully,

W. A. GREENOUGH & CO.

Compilers, Printers and Publishers.

6-6—Out of city signal, six blows twice. Companies will assemble at their respective stations and await orders

7-7-7—Military call, seven blows struck three times

Railroad fire signals—One long blow of the locomotive whistle followed by three short blows, repeated twice or more

## INSTRUCTIONS TO KEY HOLDERS

Upon the discovery of fire, go to the nearest box, open the door and pull the hook down once only, then let go; listen, if the gong in the box strikes; if not, pull again. If you fail the second time, go to the nearest box and do the same.

Remain at the box if possible, after giving an alarm, to direct the firemen to the fire. Do not give an alarm for a fire seen at a distance.

Be sure the box is closed before leaving it.

If you remove from your house or place of business, return the key to the Chief Engineer.

Key holders will bear in mind that their key will be "trapped" when used and will be returned to them by an Engineer or Inspector of Wires

Citizens are earnestly requested to keep themselves informed as to the location of keys to signal boxes. Signs over each box will give the desired information.
